

Guidelines for Authors

Folia Primatologica

Submission

Papers can be accepted from any area of primatology, including behaviour, evolutionary biology, morphology, physiology and palaeontology. However, only papers of high quality and with an extensive evolutionary or comparative perspective can be considered. Papers of more technical or factual content will only be considered if they are of unusual and immediate interest, such as discoveries of new species. Two types of paper can be accepted for publication: (1) Brief reports; (2) Standard research papers. All manuscripts are subject to editorial review. Brief reports should be no more than 1,000 words long (4 manuscript pages including tables, illustrations and references) and are not sent to independent reviewers in order to ensure rapid publication. Standard papers, which should normally not exceed 5,000 words, are sent to independent reviewers. Only original papers written in English, German or French are considered. Papers written in English should use UK English (that is British or International English) and follow spelling in The Oxford English Dictionary, except for authors in North American institutions, who may use US English if desired. Manuscripts should be sent to:

Manuscripts should be submitted fourfold (with three sets of illustrations of which one is an original), typewritten double-spaced on one side of the paper, with a wide margin. We are very conscious of the need to shorten turnaround times to the minimum. In order to do so, and in fairness to other authors, we must ask authors to return revised manuscripts to us within one month of receipt of the reviewer's comments and editor's decision letter, or, in the case where resubmission is requested, two months. If this is not possible, it is essential for authors to notify us in writing of any delay, with reasons for the delay, within these time limits.

Conditions

All manuscripts are subject to editorial review. Manuscripts are received with the explicit understanding that they are not under simultaneous consideration by any other

publication. Submission of an article for publication implies the transfer of the copyright from the author to the publisher upon acceptance. Accepted papers become the permanent property of 'Folia Primatologica' and may not be reproduced by any means, in whole or in part, without the written consent of the publisher. It is the author's responsibility to obtain permission to reproduce illustrations, tables, etc. from other publications.

Arrangement

Title page: The first page of each paper should indicate the title, the authors' names, and the institute where the work was conducted. A translation of the complete title into English and a short title for use as running head are also required. A count of the number of text, table and figure pages and of the number of words in the manuscript, including main text, references and legends for figures and tables should also be given.

Full address: The exact postal address complete with postal code must be given at the bottom of the title page. Please also supply phone and fax numbers, as well as your e-mail address.

Key words: For indexing purposes, a list of 6–10 key words in English is essential.

Abstract: Each paper needs an abstract of up to 10 lines in English. Brief Reports should not have abstracts.

Small type: Paragraphs which can or must be set in smaller type (case histories, test methods, etc.) should be indicated with a 'p' (petit) in the margin on the left-hand side.

Footnotes: Avoid footnotes as far as possible. When essential, they are numbered consecutively and typed at the foot of the appropriate page.

Tables and illustrations: Tables and illustrations (both numbered in Arabic numerals) should be prepared on separate sheets. Tables require a heading and figures a legend, also prepared on a separate sheet. For the reproduction of illustrations, only good drawings and original photographs can be accepted; negatives or photocopies cannot be used. Due to technical reasons, figures with a screen background should not be submitted. When possible, group several illustrations on one block for reproduction (max. size 144 × 196 mm) or provide crop marks. On the back of each illustration, indicate its number, the author's name, and 'top' with a soft pencil.

Colour illustrations: Up to 6 colour illustrations per page can be integrated within the text at the reduced price of CHF 660.–/USD 545.00 per page. Colour illustrations are reproduced at the author's expense.

References: In the text identify references by Arabic numerals [in square brackets]. Material submitted for publication but not yet accepted should be noted as 'unpublished data' and not be included in the reference list. The list of references should include only those publications which are cited in the text. Do not alphabetize; number references in the order in which they are first mentioned in the text. The surnames of the authors followed by initials should be given. There should be no punctuation other than a comma to separate the authors. Cite all authors, 'et al' is not sufficient. Abbreviate journal names according to the Index Medicus system. (Also see International Committee of Medical Journal Editors: Uniform requirements for manuscripts submitted to biomedical journals. N Engl J Med 1997;336:309–315.)

Examples

(a) *Papers published in periodicals:* Sun J, Koto H, Chung KF: Interaction of ozone and allergen challenges on bronchial responsiveness and inflammation in sensitised guinea pigs. *Int Arch Allergy Immunol* 1997;112:191–195.

(b) *Monographs:* Matthews DE, Farewell VT: *Using and Understanding Medical Statistics*, ed 3, revised. Basel, Karger, 1996.

(c) *Edited books:* Parren PWHI, Burton DR: *Antibodies against HIV-1 from phage display libraries: Mapping of an immune response and progress towards antiviral immunotherapy*; in Capra JD (ed): *Antibody Engineering*. Chem Immunol. Basel, Karger, 1997, vol 65, pp 18–56.

Further details: Diskette copies of word-processor files should be sent, whenever possible, when manuscripts are accepted, or accepted subject to minor revision. These should be in Microsoft Word format, on DOS or Mac formatted 3.5 inch diskettes.

Galley proofs

Unless indicated otherwise, galley proofs are sent to the first-named author and should be returned with the least possible delay. Alterations made in galley proofs, other than the correction of printer's errors, are charged to the author. No page proofs are supplied.

Reprints

Order forms and a price list are sent with the galley proofs. Orders submitted after the issue is printed are subject to considerably higher prices.

Disk Submission

A **comprehensive version** of these guidelines for the **submission of manuscripts and illustrations on disk** can be accessed online under www.karger.com/journals/disksub.htm or requested as a leaflet from the editorial department.

Please follow the general rules on style and arrangement in the **'Guidelines for Authors'** of the journal. Submit a **double-spaced printout** of your manuscript matching the file on disk exactly.

Technical Information

Store only data pertinent to this manuscript. Include your fonts (screen and printer fonts for Macintosh).

For a **text only** manuscript, use a 3.5-inch disk. For **text and illustrations**, use 3.5 or 5.25 Magne-to Optical Disc; CD-ROM (DOS or hybrid); image Zip/DOS (100 MB), or 44 MB, 88 MB or 200 MB SyQuest. Compress extensive data using ZIP format.

Data Description

Label your disk with the **title of the journal or book** for which it is submitted; a **short version** of the paper's title; your **name**, postal and e-mail address, fax and phone number; **hard and software** used, including the version; and the **complete list of the file names**. File names consist of eight

characters before the dot identifying the file and three characters after the dot identifying the application.

Text and Format

The **preferred word-processing package is MS-Word**. Other commonly used PC text programs and ASCII formats are accepted.

Update your data when you revise subsequent to the reviewer's or editor's decision and mark revisions clearly. Manuscripts accepted for publication are subject to **copy editing**: changes and/or questions will be marked in the manuscript, which will be returned to you with your disk and the galley proofs for checking.

Enter your text continuously flush left. Do not use any layout functions. Do not split words at the end of a line. **Do not use indentations.** Use a blank line before and a hard return at the end of paragraphs. **Arrange headings flush left.** Insert only **one space after punctuation marks**. Insert Greek letters, mathematical symbols etc. with your word-processing program. Use **boldface and**

italics as well as sub- and superscript where appropriate. **Tables are part of the text** and should be placed at the end of the text file. Separate the individual parts of a table by lines. Use the tabulator instead of spaces. Format operation data on one line in the same column. **Legends to illustrations are part of the text** and should also be listed at the end of the text file.

Illustrations

Store illustrations as separate files: do not integrate them in your text. Export **line drawings/vector graphics** as TIF, EPS or WMF format. Use Photoshop for processing and retouching **scanned half-tone images**. Save the original scan and the processed version. Export **black and white or color images** as TIF or EPS format in their anticipated size in print.

For detailed information on how to submit illustration data on disk please consult the leaflet or www.karger.com/journals/disksub.htm.
