ON-SITE USE OF THE UCB PUBLIC HEALTH LIBRARY

All CDPH staff are welcome to visit the Public Health Library and browse for materials, conduct research, or ask for our assistance. Cards for printing or copying are freely available for CDPH staff to use for work-related research on the UC Berkeley campus. Public health librarians are available to assist with obtaining copy cards, to answer questions, or to discuss any issues you may have.

If you have any specific projects or needs you would like help with, do not hesitate to contact us. If you are planning to come to the library and know that you would like assistance, please contact Debbie Jan or Michael Sholinbeck so that we can make sure that a librarian will be available.
