
Present: B Dupuis, J Dorner, M Sholinbeck, L Grigsby, M Prutsman, P Hamburg, C Lee, D Eifler, S Goetz, M Miller, J Woolums

Lightning Technology Talks (J. Dorner)

- C. Booth, J. Dorner, T. Dennis, [and others] have met to work out details.
- Put out a call for proposals 6/4/09, people have three weeks to respond.
- This will be a good internal teaching opportunity in light of possible cut in staff development funds.
- These courses will all be technology focused (not teaching focused) and have applications to libraries.

Brainstorming library liaisons' instructional responsibilities (All)

- See attached document from discussion

Update on K-12 Teacher Support/Resources (M. Miller, J. Dorner)

- While we do not have resources to provide instruction sessions and tours for K-12 classes, it would be helpful to document how the Library can support K-12 teachers, especially in the present financial climate. J Dorner and M Miller have created such a document to be posted online.
- Should this document be for "K-14" to include Community College Instructors as well? This may be too confusing as their borrowing privileges may be different. "Instructors" in title of document will be changed to "Educators".
- It was suggested by the group that the information about searches, recalls, holds, renewing should be removed from this document, it should just link to existing pages. Also the group favors reordering the document to bring the section about "Bringing Students to Visit the Library" near the top of the document.
- One sentence descriptions of the online "Instructional Materials" will be added to the document.
- A page is being created in order to provide a list of the Libraries digital collections.
- ACTION: Changes will be made based on feedback from the group, and it will be sent out for EIC review again, then go through the WAG vetting process.
