

2006 Salinity/Drainage Conference
Red Lion Hotel, Sacramento
Agenda

March 29

7:30 – 8:30

Registration and Continental Breakfast

8:30

[Salinity and salt management issues in the Central Valley](#)
Dennis Westcot, retired State Water Resources Control Board

9:00

[The sustainability of irrigated agriculture in the San Joaquin Valley, California](#)
Jan Hopmans, UC Davis

9:30

[Approaches to reduce amount of drainage water that requires disposal](#)
John Letey, Emeritus UC Center for Water Resources

10:00

Break

10:30

[Solar Evaporator for Integrated on-Farm Drainage Management System at Red Rock Ranch, San Joaquin Valley, California](#)
Jose Faria, Department of Water Resources

11:00

IFDM Conversion: Managing drainage water, salt and selenium on the farm in a sustainable way
Michael Andrews, Rainbow Ranches

11:30

Agency Updates: [Salinity in the Central Valley](#) and [San Luis Drainage Feature](#)
Rudy Schnagl (RB5), Jerry Robbins (USBR)

12:00

Lunch

1:00

[A Local Solution to Salinity Management in the Grassland Drainage Area and Benefits to the San Joaquin River](#)
Joe McGahan, Chris White, Dennis Falaschi, Grasslands Integrated Drainage Management Project

1:30

Membrane desalination of agricultural drainage water: Opportunities and limitations
Yarom Cohen, UCLA

2:00

[VSEP Vibrating Membrane Separation System for Desalination](#)
J. Brad Culkin, New Logic Research

2:30

Break

3:00

[Guns, Ducks and Salinity: Adaptive real-time water quality management in the Grasslands Basin wetlands](#)
Nigel Quinn, Lawrence Berkeley National Laboratory

3:30

[Report by UC Center for Water Resources](#) (projects and future plans)
Andrew Chang & Linda Vida, UC Center for Water Resources

4:30

Conference Adjourns
