

Poster Presentation Form

27th Biennial Groundwater Conference and 18th Annual Meeting, Groundwater Resources Association of California

October 6 – 7, 2009
Sacramento, California

Water Crisis and Uncertainty: Shaping Groundwater's Future

The conference organizers welcome participants to present posters of their completed and/or ongoing professional work during the conference. Posters presenting student work are also encouraged. Posters will be on display for the duration of the conference and may focus on any of the following list of topics:

- Groundwater Salinity and Nutrient Management
- Optimizing Water Storage: Dams and Subsurface
- Groundwater Quality Sustainability in Urban and Agricultural Settings
- Water Reuse/Recycling
- Water and Energy: Optimizing Groundwater Pumping
- Impacts of Using Groundwater in a Drought
- Managed (and Unmanaged) Aquifer Recharge
- Thriving (or Surviving) in Times of Drought: Benefits of Planning
- Groundwater Regulation and Permitting
- Other groundwater related topics (General Poster Session)

There will be a poster session/reception 5:00–7:00 pm on Tuesday, October 6, 2009 where presenters can discuss their work with interested parties and answer questions.

Abstract submission: If you are interested in presenting a poster, please submit the information in items 1 and 2, below, no later than August 14 to: Richard Laton, wlaton@fullerton.edu. The subject of the email should be “GW Poster Interest.” A separate email should be submitted for each poster to be presented. Space is limited, so if you have an interest, please advise us as soon as possible. A complete abstract will be required by August 26, 2009; the abstract format is on the following page. Abstracts will be included in the printed conference program.

1. **Presenter: (List the contact person)**

Name: _____
Affiliation: _____
Telephone: _____ Voice: _____ Fax: _____
E-mail: _____

2. **Presentation: In no more than 3-4 sentences, describe the content of this presentation**

Title: _____
Topic: _____
Description: _____

Abstract Title Should Be Centered And in Bold 16 Point Arial Font

Distinguished A. Author¹, Second A. Author²
(Authors are listed in centered byline with 12 point Italic Arial)

Abstracts must be submitted in electronic format using Microsoft Word. The abstract is not to exceed a single page in length. The margins must be one-inch (top, bottom, left and right sides). The font to be used for the body of the text should be regular style 12 point Arial. The body of the text should be single spaces and left justified and no indentation of the first line of any of the paragraphs. There should be a single line (hard return) between the title and the authors listed in the byline. There should also be a single line (hard return) between the byline and the first line of text of the body of the abstract. All paragraphs in the body of the abstract should also be separated by a single line (hard return).

The document header should indicate that the abstract is for a poster presentation. Footers are not to be used. The contact information for the authors should be included as footnotes below the body of the text. The numbering for each footnote should be superscript before the first word of each contact listing. The footnotes should be left justified and the font should be Italic style 10 point Arial. The footnote should list the organization, street or mailing address, city, state, zip code, telephone number, fax number, and email address. Commas should separate the mailing address items and semicolons should separate zip code, telephone, fax and email address. There should be two lines (hard returns) between the last paragraph of the text and the first footnote. The footnotes should be single spaced. Examples are contained in the footnote.
