New Directions Retreat Notes
April 15 and 16, 2008

Remote Users/Libraries

- Possibly have librarians at beginning of semester in small department libraries. Will probably be allowed in department meeting only 1x/year
- Being part of a department, a librarian is able to make strong relationships
- Peer to peer reference could be a course
- Chat/IM reference in catalogue so easy to find. Also course websites
- Virtual peer to peer reference. Wiki
- Peer to peer already happening. Merge reference and circulation desks
- Most reference happens by email. Listservs make us part of community of scholars. Already happening
- SP3: study group ongoing – meshes with R&D function
