The Natural Contract
Translated by Elizabeth MacArthur

"wise, rich and poetic . . . Nature is acknowledged as an inside force which breaks [the philosophers'] discourse, and opens it up to a vigilant poetic meditation."

Conversations on Science, Culture, and Time
Translated by Roxanne Lappidus

"l'avar slow reveals the nontraditional, demystifying approach. Series uses to explore the relations between science, culture, philosophy, the humanities, arts, and social sciences. The result at times seems like an intellectual duel between two keen and fertile minds, one that will be appreciated by many scholars and students of science's writings."
