

## Cataloging and Metadata Council Meeting of July 21, 2020

### Notes:

1. Law Library - IR and ILS in the same platform. Trying to figure out how records look.
2. [New Charge for CMC](#): 2 AULS as Sponsors. JNR is stepping in until the Head of CSD is hired, then they would take over the chairship. Metadata, discovery standard, and this group is a resource for the SILS environment for input and workflow changes. This is an open meeting - others can attend as they'd like. Members of council get invited. Other interested stakeholders are invited. Invitees would not be able to vote on the decisions. Agenda will be shared on libstaff and others can be open. Allusers is a member of libstaff. There are 4 members representing PCC liaisons, 2 are on CMC. It was suggested to all 4 PCC members on CMC.
3. Membership of CMC: Back in May 2020, Jane as the interim head of CM&S worked on the retirement of the "principle cataloger" as that forced the expertise to reside in one person. It was also a remnant of the olden times. Now the questions will go to catalog management group, which is shared among more staff. The larger goal is to have everyone trained, so there is a free exchange of information and is not siphoned through one person. It was suggested to ask questions of each other and of leadership. PCC(Program for Cooperative Cataloging). UCB participates in 3 of the 4 PCC programs. It would be a rotation -- so the coordination would rotate among staff. Proposal to add Naomi and Stella to the Council, given their role in PCC.
4. SILS update:
5. Schedule: Recurring meeting will meet the majority needs. We will have a meeting in August. For future agenda items, please use the list. Some ideas: socially conscious subject headings, analyze the Vanguard results, Greenglass results, discovery. Other ideas can be discussed via list.
